VOL. XVI.--106 RALEIGH, N. C., FRIDAY, JANUARY 9, 1880 $5.00 PER ANNUM

FORTY-SIXTH CONGRESS

DAILY PROCEEDINGS OF THE SENATE AND HOUSE.

HOUSE RESOLUTION.

WASHINGTON, Jan. 8.—A resolution has been adopted directing the committee on appropriations to inquire into the causes and extent of the probable deficiencies in the postal star service for the fiscal years of 1879-'80. Committees are now being called for reports.

SENATE.

Wallace presented a petition of Drexel & Co., and others of Pennsylvania, for the withdrawal of legal tender quality of treasury notes. In doing so he desired to say that the gentlemen signing the petition represented the leading commercial banking and shipping interests of Pennsylvania, and their opinions on the subject were entitled to attention by the Senate. The Sergeant at arms brought to the bar of the Senate, L. T. Smith, Levi Wilson and E. B. Purcell to answer the charge of contempt and not obeying the summons to testify in the Ingall's case. Smith made a statement to the effect that he sent a telegram to the committee saying that he knew nothing about the election of Ingalls. A discussion took placeas to accepting thewitnesses explanation. Saulsbury, the chairman of the committee, was in favor of discharging witnesses upon his appearing before the committee and testifying that M. C. Millan and others objected to keeping the witnesses in custody and claiming that no lawful summons had been served on him.

The House committee on Appropriations discussed, at some length this morning, the request of the Postoffice Department for an appropriation of $2,000,000 to cover the increased expenses of the Star service, and decided to report at once to the House the resolution authorizing the committee to institute an investigation of the entire matter.

The subject of the pay of United States marshals was referred to subcommittee on Deficiencies, of which Mr. McMahon is chairman, with instructions to prepare a bill.

The army and Indian appropriation bills were also discussed, and the sub committee authorized to prepare and report them to the full committee as soon as possible. It is believed they will both be reported to the House within a week.

WASHINGTON, Jan. 8.—After a long discussion of the case of Senator Smith and other recalcitrant witnesses on Ingall's case, they were discharged from custody.

Senator Jones, of Louisiana, presented a petition of the ship owners of Louisiana, asking for an amendment of the law relative to the forfeiture of vessels for a violation of the revenue laws.

Senator Jones, of Louisiana, also introduced a bill to repeal the 22nd section of the act to incorporate the Texas Pacific Railroad Company to aid in the construction of its road and for other purposes, and also to declare the rights of the privileges and lands granted in said section to the New Orleans, Baton Rouge & Vicksburg Railroad to be forfeited and re-enacted in said section in favor of the New Orleans Pacific Railroad. Referred.

At 2:10 the Senate went into an executive session and when the doors were reopened—adjourned.

WASHINGTON, Jan. 8.—At 1:40 the House went into Committee of the Whole. On report of the committee on rules Mr. Reagan, of Texas, spoke in opposition to the proposed rule which provides that the committee on Commerce shall report on river and harbor bills merely for reference to the Appropriation Committee. He thought that the latter committee, burdened as it already is, could not give the subject proper consideration. He objected to the plan of making one committee merely a clerk or amanuensis for the other, and declared that the commerce committee had always acted upon the river and harbor bill with faithfulness and efficiency. After some further discussion, in which Mr. Garfield and Mr. Hooker, of Mississippi, participated, Mr. Randall, of Pennsylvania, disclaimed in behalf of the committee on rules any intention of abridging the power of any House committee or of saying a word derogatory to any committee, but the river and harbor bill had steadily grown year by year from $2,000,000 to $8,000,000, and he thought it time that the House be warned that that bill should have fuller consideration and be less excessive. Further discussion ensued, ending in an animated personal debate between Mr. Randall and Mr. O'Neill, of Pennsylvania, which was the occasion of much laughter and confusion, but much of which had little to do with the subject. Pending the discussion the committee rose and the House adjourned.

Gas Stocks Falling.

LONDON, Jan. 8.—A Paris dispatch says the news of Edison's discovery in the electric light has produced some sensation hereabout. Dumoncel, who is recognized here as the highest authority on electricity, writes to Le Temps saying: "The new lamp is not new and warns the public against the pompous announcements from the New World."

Diphtheria Abroad.

LONDON, Jan. 8.—A St Petersburg dispatch to the Reuters' Telegraph Company says the local red cross society of Kharkoff, in view of the terrible distress prevailing in that province through the ravages of diphtheria, have formed three medical and sanitary detachments to assist the government in combatting the epidemic.

In the Fog.

BALTIMORE, Jan. 8.—A collision occurred last night near Martinsburg, West Virginia, between two freight trains on the Baltimore & Ohio Railroad, but the particulars are not known here yet, except that a number of cars were thrown from the track.

The Fire Record.

LONDON, Jan. 8.—A fire broke out at Amsterdam, Holland, in the sugar refinery of Benker & Hulshoff, last night, and has been raging with great violence.

The Downfall.

LONDON, Jan. 8.—A Lahore dispatch says that David Shah, commander-in-chief of the army of ex-Ameer, has been sent as a prisoner to India.

All Quiet in Maine.

AUGUSTA, Maine, Jan. 8.—Both branches of the legislature assembled quietly at 10 A. M., in the presence of a much smaller number of spectators than yesterday. In the Senate, Senator Hobson offered a resolution for the appointment of a joint committee of both Houses to investigate the charges of attempted bribery of the members of the legislature since the receipt by them of their certificates. The resolution was opposed by the Republican Senators on the ground that no bribery of Senators had been charged. If the members of the House had been bribed the investigation should begin there. The resolution was, however, adopted. No other business of importance was transacted. In the House the records of yesterday were read and revealed the fact that none of the officers voted for had more than seventy-two votes. Mr. Hale announced the presence of sixty-five Republicans with certificates who were ready to be qualified. Acting Governor Lanson refused to qualify them at present as he did not know the extent of his power in that direction, but said he would inform himself. The House then quietly adjourned. The Republican members will probably be qualified to-morrow. Mr. Stoul, of Veazie, who is among the number, will act with the Republicans, thus giving them a majority on the popular branch, should the members from the five cities be admitted.

The Catholic Debt Question.

CINCINNATI, O., Jan. 8.—J. B. Mannix, assignee of Archbishop Purcell, yesterday filed in the probate court a schedule of the real estate, which is claimed to be liable to sale for the benefit of the creditors of the Archbishop. The schedule covers all the property of the Catholic Church in the City Cathedral, the churches, Parochial school building and lots. The property is to be appraised, but it is now estimated at over one million and a half dollars. The attempt to make this property the assets for the creditors will be bitterly contested. A meeting of the creditors will be held to-day to decide on the proposed appointment of E. S. Troop, attorney for the bank creditors, as the assignee in place of Mr. Mannix.

The Jersey Mines.

MORRISTOWN, Jan. 8.—The miners in four of the mines near Dover, Morris county, have struck for an advance from $125 to $150 per day. The strike began in the Baker mines. It is thought it will be general at the mines as orders for ore are largely in excess of the amount mined and it is expected the men will get the desired advance. No violence is apprehended.

A Church Rule.

DUBLIN, Jan. 8.—The *Irish Times* states that the Government has determined to use £250,000 of the church surplus as a fund to be loaned at an exceptionally low rate of interest to landlords and the local bodies for expenditures in the construction of permanent works in order to provide labor for unskilled workmen, the loan to be repaid in thirty-five years.

Nominations.

WASHINGTON, Jan. 8.—The Senate, in executive session to-day, confirmed the nomination of J. D. Wilson as postmaster at Murfreesboro, Tenn.

J. B. Hussey, of North Carolina, has been appointed Librarian of the House of Representatives.

Greenback Labor Party.

WASHINGTON, D. C., Jan. 8.—The National Greenback Labor Party Conference met here to-day with one hundred and twenty-five delegates from twenty-eight States in attendance.

Hon. T. H. Murch, the Greenback Congressman from Maine, was elected permanent chairman, and a committee was appointed to report upon the time and place for the National Convention to nominate a candidate for President.

Judgment Affirmed.

RICHMOND, Va., Jan. 8.—The Supreme Court of Appeals of Virginia has affirmed the judgment of the Hustings Court in this city, in the case of John E. Poindexter, convicted some months since of killing Charles C Curtis on the 3d of March last. Poindexter was sentenced to the penitentiary for two years for voluntary manslaughter.

THE WILL OF WASHINGTON'S SECRETARY OF WAR.

Why a Copy of it Has Been Brought to this City.

In the Probate Court yesterday exemplified copies of the wills of James McHenry, and his grandson James McHenry Boyd, were filed for record, in order to perfect a title to some property in the District now owned in the family of ex-Secretary of War Belknap. James McHenry was born in Maryland in 1775, and served in the Revolutionary War as an aid-de-camp on the staffs of Generals Washington and Lafayette; represented Maryland in the Continental Congress and in the Convention which framed the Constitution of the United States, and during the administration of Washington he was made Secretary of War, and served some months under him in that position, and for a short time under President John Adams; being dismissed by the latter because he opposed the policy of the executive, he being one of the first Americans dismissed from public office because of his political opinions.

Fort McHenry, near Baltimore, was named after him, and he died in that city in the latter part of 1815, leaving a will, in which certain bequests were made to his grandson, James McHenry Boyd, who died in New York about 1846. Ex Secretary of War McHenry, in 1799, became the owner of lots 9, 10, 11, 12 and 13, square 218, (between 14th, 15th and I and K streets northwest,) in this city, and left three heirs, including his grandson, McHenry Boyd, who succeeded to this property. The latter, before his marriage, had made a will bequeathing the bulk of his estate to his affianced wife, a Miss Hall, of Hartford county, Md., whom he subsequently married. While on their wedding tour in New York, Mr. Boyd was killed by the accidental discharge of a pistol in his trunk, which he was arranging. After his death, Mrs. Boyd married Lieutenant (now General) J. G. Barnard, United States army. In the meantime the property here was sold for taxes, and was held by various parties, but in 1859 the McHenry's entered a suit of ejectment, and recovered, in our Circuit Court. Some of the property then fell into the hands of Mrs. Bower, of Kentucky, who is now Mrs. Belknap, wife of the ex-Secretary of War. Thus, it will be seen, the title to this property was in the first ex-Secretary of War originally, and after being held by different parties for three-fourths of a century, becomes vested in another ex-Secretary.

Moonshiners in Wilkes.

Charlotte Observer, 7th.

Revenue agent Kellogg returned yesterday from an expedition into Wilkes county with a party of men in search of illicit distilleries and "moonshiners." He reports the blockade business in an animated condition. During the week his party found and seized twelve stills and captured several hundred barrels of blockade whisky. In one or two places they met with a very warm reception, having been fired at several times. Up to the time he left, however, no one had been hurt, and the raiders were penetrating still further into the mountains. The officers say they have more difficulty with Wilkes than any other county. The whisky business is a very large interest in that region, and the opportunities for concealment in the fastness of the mountains are better than in almost any other county where the business of distilling is carried on to any great extent.

THE INDIAN COUNTRY.

THE TWELVE UTES ARRIVED AT PUEBLO.

The Assembling of Five Thousand Spectators---The Judicious Action of the Troops.

PUEBLO, Col., Jan. 8.—Twelve Utes in charge of Lieutenant Taylor and ten men arrived here yesterday, and immediately proceeded east. Between two and three thousand people congregated at the depot, and "hang the red devils," "shoot the murdering fiends," and like expressions were frequently heard from the crowd, and the Indians were pelted with coal by the boys who had boarded a coal car on a side track. The savages were terror stricken and completely cowed. A move was on foot in the morning to organize a band of five thousand men and lynch them, but the cooler councils prevailed and the citizens finally determined to let the Indians pass on without injury. Had there been any injudicious action taken by the troops or miners, no power could have restrained the mob from lynching them. Had Douglass or any of the Indians engaged in the murder of Meeker or in outraging the Meeker family, been on board the train, a rope would have come into play.

Lieutenant Taylor, in an interview, expressed himself as determined to protect the Indians at all hazards, should a mob attempt to seize them.

FORSYTHE.

WINSTON, Jan. 5.—The new year was ushered in as mild, genial, sunny and lovely as the most delightful spring time, and up to the present we have been having the most genial and balmy weather ever know in January. It is to-day as lovely as can be.

Business has been as good as could be expected after Christmas. Work of all kinds has been pushed forward with a rush.

The colored people celebrated Emancipation Day with a procession, band of music, etc. Parson Ferebee and two others on horseback with unsheathed swords headed the procession, while another likewise armed brought up the rear. The parson tried to dispose of his horse the day before by having him shot for in a match for the benefit of the church; but when they had assembled on the field of contest, the Parson required each man to fork over the "rind fore the shooting began," and as but one of the contestants had the "stamps," the $35 could not be raised the Parson rode him in procession.

A lot buggies, phaetons, etc., were offered for sale at public auction on our streets, but the bidding was too weak to justify the sales and but few were sold.

Last Sabbath services were held in all the churches. Quarterly meeting in the Methodist Episcopal, Rev. Mr. Bobbitt, the Presiding Elder officiating. This congregation contemplate building a new church, the present building though of good size, being too small for the growing congregation. They have a beautiful lot and are well able to erect an edifice worthy of our town and State. The Presbyterian Church has been furnished with new and beautiful chandeliers.

Most of the young gentlemen of our town were out in phaeton doing New Year's calls.

A Winston gentleman and a Forsythe lady to-morrow night at 7 o'clock. Particulars in our next.

Mrs. Harriet Ebert, consort of John Ebert, of Salem, died this morning of consumption.

Your correspondent is under obligations to the Eaton & Burnett Business College of Baltimore, for a complimentary ticket to attend a reception on the 1st instant.

LENOIR.

KINSTON, Jan. 7.—The weather is warm for this time of the year and we had a good rain yesterday.

Trade is not so good as it was about two weeks ago, but I belive all the merchants keep busy.

Marriages are too numerous to mention.

Mr. Wilson Tilghman, an old citizen, of Lenoir, died a few days ago.

Mr. James H. Kinsey has organized a sporting club. They will order their rifles in a few days.

Inferior Court convenes here this week.

Probate Judge William Hunter has moved his office to the one formerly occupied by W. H. Ball.

The telegraph office has been moved in the back part of Dr. Meyer's drug store.

Mr. F. H. Carr and Professor Goodison, the ventriloquist, are here selling Dr. Flag's Liver and Stomach Pads, till you can't rest.

Professor Frank Taylor will give an entertainment in the court house to-morrow night for the benefit of the Sunday schools in this place.

Three car loads of negroes left here Monday for Kansas, Indiana, Georgia and Florida and about fifty more this morning.

The three cars Monday was so crowded that most of them had to stand up.

H.

DAVIE.

ELBAVILLE Jan. 6.—Since my last report the weather has been warm and fair.

Christmas, with its merriment, making glad the hearts of the old as well as the young, has been with us and has left with us the sad remembrance of several accidents—some of them caused by carelessness and others by too much "tangle-leg."

A lad, the son of John P. Williams, while rabbit hunting shot himself with a musket, and died in about three hours.

Four negroes were recently engaged in a drunken brawl, when one of the number received a pistol shot in the knee, producing a painful but not serious wound.

Two young men starting home from a party on the night of the 1st instant, attempted to ride double on horseback and were thrown against a tree with serious injuries.

A. A. Springs, of Advance, caught Will Sparks, a negro boy, robbing his money drawer. After recovering his money he locked Will up in his granery, from which he soon made good his escape, by tearing off the gable end of the building, and left for parts unknown.

Trade is very brisk. Everything seems to have advanced except whisky and manufactured tobacco. Several acts of land were sold at the courthouse door in the town of Mockville yesterday, and brought very fair prices.

Parties and turkey dinners have been all the rage for the last fortnight, and now a good old-fashioned dinner of hog and hominy would be quite a treat.

The farmers are preparing for a large tobacco crop, and now the smoke from their burning plantbeds may be seen in every direction.

JOHNSTON.

CLAYTON, Jan. 8.—The weather is cloudy and warm.

On Tuesday the 6th. instant the members of the Baptist Center church held a thanksgiving meeting. They organized a Sunday School also.

The spring session of the Clayton Institute will open on Monday the 12th instant. Rev. J. W. White, the Principal, says "The prospects are flattering." We see no reason why the school should not be fitted up with the very best material in the county. Clayton is a high, healthful place. The society is good. The school will be under the management of three excellent teachers.

R. C. G.

HE WAS THERE.

The Leading Piute who was Shown a Picture of the Massacre.

Virginia City Territorial Enterprise.

Among a number of oil paintings by McClellan, displayed in front of an auction store, was one representing the Mountain Meadows massacre. The teams and wagons of the emigrants are seen winding down into the valley in which the horrible tragedy is soon to be enacted, while behind rocks and trees in the foreground are visible the crouching Indians and Mormons, all in feathers and war paint.

A crowd of men were standing about the picture commenting upon it and talking of the horrible butchery it represented, among the rest the *Enterprise* reporter.

Observing a stalwart Piute brave standing on the street at the distance of a few paces, the reporter said to the whites present: "Hold on and we'll have some fun. I'll get yon Indian and confront him with the scene."

The Piute, a huge, sleepy-looking fellow, tattooed on the point of the chin and cheek bones, was soon brought in front of the picture.

The reporter pointed out the horses and wagons, the men, women and children, all unsuspiciously filing down into the valley, and the armed and painted Indians, with "blood in their eyes," peering out from their hiding places. "You see the white men, the horses and the wagons?" said the reporter.

"Yash, me see um," said the Indian.

"You see the Injuns behind the rocks and behind the trees?"

"Yash, me see um."

"You see the Injuns have all got guns?"

"Yash, me see um gun."

"Now, pretty soon Injun shoot all the white men, shoot all white women, cut throat of all little children—you sabe?"

"Yash, me sabe."

"You sabe?"

"Yash, heap sabe," said the Indian earnestly, his eyes glistening.

The reporter was somewhat disappointed, as he had expected the Indian's feelings would be somewhat worked upon by the picture of wholesale slaughter he had drawn, particularly when it came to cutting the throats of the children. However, the untutored child of the desert gazed innocently in his face with a look which seemed to say: "Well, proceed with the lesson."

The red man seemed utterly free from guile, and willing to test him further the reporter said:

"When all men dead, all women dead, and all children dead, Injun take all horses, all blankets, all money, all everything in wagon—you sabe?"

"Yash, me sabe.

Turning to the reporter the guileless and untutored fellow pointed out a particularly fierce-looking Indian peering out from behind a rock.

"You see um him?"

"Yes," said the reporter. "I see him."

"You see um gun?"

"I see the gun."

"You see um feather on him head?"

"I see his feathers."

"Good boy, you heap sabe. That Injun by rock, that Injun with gun, that Injun feather on head, that one d—n mean Injun—heap shoot—that Injun me!" drawing himself up to his full height and slapping himself across his resonant chest with his broad right hand.

BOB PHARR'S DEATH.

The Attorney-General Decides the Question of Reward.

Charlotte Observer, 7th

When the application of Policeman Hill and others, to the Governor for the reward of $200 offered for Bob Pharr, was made, His Excellency referred it to the Attorney-General. Yesterday Sheriff Alexander received a letter from Governor Jarvis enclosing the opinion of the Attorney-General, which is given below. The point which he had to decide was whether or not the officers were entitled to the reward, when, instead of delivering the culprit over to the sheriff, they killed him (in self-defence) and tendered his body to that officer. The following is the Attorney-General's report:

ATTORNEY-GENERAL'S OFFICE,
STATE OF NORTH CAROLINA,
RALEIGH, January 3, 1880.

To the Governor:

A similar application was made and decided adversely to the claimant, some two years ago, in an opinion given by me to your predecessor. The reward in this case was offered on the 9th of December, 1879, under a proclamation for the apprehension and delivery of the fugitive to the sheriff of Mecklenburg, that he might be tried for the offence charged against him, and punished according to law, if found guilty. The facts stated in the accompanying papers show that the fugitive was a dangerous man, and in attempting to arrest him, the parties claiming the amount of the reward killed him in self defence.

While under the circumstances there might have been a necessity to kill the fugitive, yet he was not outlawed, and his delivery to the sheriff to answer the charge against him was necessary to entitle the claimant to pay under and by virtue of the proclamation issued for that purpose. A party undertaking to arrest a fugitive agrees to perform his part in accordance with the terms specified in the proclamation offering the reward, and that must be shown before the reward is paid. See the case of Currie and Swindell, 11 Iredell, 361.

THOMAS S. KENAN,
Attorney-General.

Week of Prayer.

The fourth of the series of union prayer meetings was held at the First Presbyterian Church last night and was very largely attended, the church being full. Rev. Mr. Watkins, the pastor of the church presided and made an appropriate and eloquent opening address and the following gentlemen took part in the meeting, Rev. Dr. Skinner, Rev. Dr. Reed, Wm. S. Primrose, Rev. L. Branson, Rev. Mr. Gwathney and Rev. Mr. Smith. The services were interesting and all seemed to enjoy this union of christians in praying for each other and the world. Meeting to-night at Swain Street Baptist Church, subject: prayer for nations, rulers and people; for peace and religious liberty.

TRINITY COLLEGE.

CONSTITUTION OF THE LADIES' AID SOCIETY.

The Plan to raise Funds to aid in Relieving the College of its Indebtedness.

Recognizing the potent influence of the ladies in any great work of the church, the agent has fallen upon the following plan to aid him in raising funds to relieve Trinity College of its indebtedness. The idea was conceived by the agent, and modestly he presents it to the Methodist ladies of North Carlina and the patrons of education, believing it will meet with general favor and accomplish the object contemplated. The plan, which is designed to aid in paying the debt of the College, also combines with it intellectual improvement and social enjoyment. The preachers are earnestly requested to give encouragement to the plan by calling attention to it in their respective congregations, and by aiding the ladies in organizing societies wherever practicable. So far as the agent has heard an expression of opinion, either from the ladies or gentlemen, the plan meets with enthusiastic favor, and grand results are expected. When a society is organized the secretary will confer a favor by promptly notifying the agent, that he may make a record of the same, and communicate with the president, as occasion may require.

J. B. BOBBITT,
Agent for the College.

Baleigh, N. C., January 1, 1880.

CONSTITUTION OF THE LADIES' AID SOCIETY OF TRINITY COLLEGE, N. C.

ARTICLE I. The objects of this Society shall be to raise funds for the benefit of Trinity College and to improve the minds of its members, by such course of readings and rehersals as they may find entertaining and profitable to themselves, or by selecting at least one member to read an essay, or deliver an address at each regular meeting of the Society.

ART. II. The officers of the Society shall consist of a president, vice-president, secretary and treasurer.

(1.) It shall be the duty of the president to preside at all the meetings of the Society, see that good order be observed, and to take a general oversight of the interest of the Society.

(2.) It shall be the duty of the vice-president to perform all the duties of the president in her absence.

(3.) It shall be the duty of the secretary to keep a faithful record of all the proceedings of the Society.

(4.) It shall be the duty of the Treasurer to receive all moneys raised for the College and to forward the same monthly to the Agent of the College at Raleigh, N. C., by post office order or check.

ART. III. The Society shall be composed of such ladies of —— church and community as shall contribute the sum of twenty-five cents upon joining.

ART. IV. The Society may receive as members such gentlemen-friends of education, as in their opinion will aid them in carrying out the objects contemplated.

[illegible] option, designate members of the Society to solicit contributions for the benefit of the College, who shall report and pay over the amounts thus collected to the Treasurer at any regular meeting of the Society.

ART. VI. The Society shall meet weekly or monthly at such place as the majority of its members may select.

ART. VII. The Secretary of each Society shall forward to the Agent at Raleigh, N. C., the names of all its members, to be recorded in a register provided by the two Literary Societies of Trinity College, which register shall be preserved by these societies as a pleasing and perpetual memento of the generous work of North Carolina ladies in behalf of sanctified education.

The Sea Serpent Caught at Last.

They have caught the sea serpent ashore at Huntington, L. I.,—at least they say so, though they cannot produce it. The foreman on the Delameter estate, at Eaton's Neck, found one of the drains stopped and proceeded to clean it out. He found that the obstruction was a monster eel. It defied all efforts to remove it from the pipe, and a sharp blow only had the effect of driving it further in. Then the foreman chopped off two or three feet of the tail and the eel began backing out. Repeating the blows as it came out he cut it in pieces. Taking the mangled remains home in a handcart he placed the pieces together in line and says they made twenty feet of eel. He described the eyes as being "as big as a sheep's." Unfortunately he did not save the pieces. "I do not know what I was thinking about," said he, "but I foolishly gave them to the hogs." The grating in the drain was put in about fifteen years ago and it is supposed that the eel, if there was one, had been imprisoned since that time, unable to reach salt water.

How is this, Mr. Hewitt?

Philadelphia Times, Jan. 3d.

It is growing more and more evident that there is a plot among the Eastern Democrats, especially among the friends of Mr. Tilden, to crowd Mr. Bayard off the track, and to strangle his "boom," if possible, while it is still in its infancy. Only a few weeks ago a prominent New York Democrat—no less a man than Mr. Hewitt—came here and made himself busy on the floor of the House, urging Mr. Randall as the man who would be best able to carry New York. He could give no reason at first, except Mr. Randall's great popularity with that powerful element of the Democratic party known as "the boys." Finally, when pressed by a very shrewd man who sees farther than most politicians do, and who on this occasion thought he saw a reason beyond that assigned by Mr. Hewitt, the latter said that Mr. Tilden desired Mr. Randall's nomination. All this was very strange, especially when the relations of Mr. Hewitt with Mr. Tilden are recollected. The gentleman who has been so grossly deceived by the "Sage of Gramercy Park" seemed, however, to speak by the book, and it may be that all the New York differences will be accommodated by the adoption of Mr. Randall as the candidate of the party next year.

A few days afterward Mr. William H. Barnum, the eminent ironmonger ex-Senator and party manager, happened in at the Arlington, and he confidentially announced to some friends that Mr. Tilden must either be the candidate himself or must be permitted to name the candidate. It is pretty generally the feeling here that all the old Tilden crowd are getting ready, in order to beat Bayard, to support Randall should Seymour persist in refusing to risk death or something worse to go on the ticket. There is a very strong hostility among the Eastern politicians, and indeed, among politicians generally, to the candidacy of the Delaware Senator. The Western and Southern soft-money men are not more outspoken against him than the hard-money Democrats of the East, and the Democratic machine is not nearly so easy to beat as the Republican machine. Mr. Bayard is confessedly the most consistent hard-money man in public life. He has never for an instant swerved from his course, never advocated a measure for its expediency and never been beguiled into the support of compromise bills. What it is that has aroused this opposition to him among the Eastern Democrats is one of the mysteries of politics which it will take a politician to unravel. There is but one explanation that is patent, and that hardly furnishes a valid excuse for the action of such men as Hewitt, Barnum, Eaton and men further East, among the Republicans in whose States Mr. Bayard's nomination would be immensely popular. The explanation is Mr. Bayard's course during the extra session.

There is a good deal of injustice in the charge that the Southern members of Congress were alone responsible for the follies of that unfortunate session. There was, indeed, a good deal of Southern absurdity exhibited, and Blackburn's desire to be Speaker of the House had a good deal to do with compelling it, but after it had been compelled and had begun the men most rabid and persistent in fighting the President to the bitter end, even if that involved the denial of the necessary appropriations, were the Eastern men.

The Southern Democrats saw that there was no probability that bayonets would ever again be used to interfere with their elections, while the Northern Democrats were determined to be rid, if possible, of the presence of the Federal peace officers at the polls. It was Mr. Bayard who fought the extra session from the beginning, and it was he who was at last successful in winning the majority of the Democrats in Congress to his view. It is very possible that this accounts for the hostility of the Eastern Democrats to him; it is hardly probable that Mr. Tilden's friends give the correct solution when they say that their leader will insist that no one connected with the Electoral Commission shall be the Democratic nominee next year. Mr. Tilden's responsibility in the tribunal is now too well known to admit of any dispute.

Suicide a of Millionaire.

A dispach from Cleveland says Lenoard Case, a very wealthy resident of that city, died early yesterday morning under circumstances which give rise to suspicion of suicide. He was found lying on the floor, and near by was a mug which contained chloroform. Case was a bachelor, nearly sixty years of age, and was worth between $3,000,000 and $4,000,000. He was noted for his charitable gifts having donated some years ago a large block of ground to the Cleveland library.

A Good Endorsement.

It would no doubt be highly amusing and at the same time astonishing, to see a complete list of all the expressive and "powerful" names of the multitude of short lived medical preparations placed upon the market during the past few years as "most wonderful discoveries" and "infalliole cures," (*In hoc signo vinces.*) by unscrupulous speculators and adventurers, who, recognizing the value of advertising seek by these means to obtain public favor and popularity for their doubtful and so often entirely worthless and even dangerous preparations. And it is a genuine pleasure for us to commend Dr. Bull's Cough Syrup as one of the few really deserving medicines offered to the public. Its adoption by many of our intelligent physicians is due only to its real worth and merit and by thousands of families it is regarded as "the standard household remedy."—*Wash. D. C. Critic.*

Knabe Pianos.

Messrs. William Knabe & Co., Baltimore, being desirous of bringing their unrivalled pianos more directly to the attention of the people of Raldigh, have decided to open a few of their most desirable styles at No. 20, Fayetteville street (opposite Tucker's store), for a few days, and would extend a very cordial invitation to all lovers of music to call and examine. Also a fine assortment of the celebrated Smith American Organs will be placed on exhibition. Parties who contemplate purchasing either pianos or organs are especially invited.

Old pianos will be taken in exchange for new, and full value allowed.

Messrs. Knabe & Co. manufacture only strictly first-class pianos.

No More Hard Times.

If you will stop spending so much on fine clothes, rich food and style, buy good, healthy food, cheaper and better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of employing expensive, quack doctors or using so much of the vile humbug medicine that does you only harm, but put your trust in that simple, pure remedy, Hop Bitters; that cures always at a trifling cost, and you will see good times and have good health. See another column.

Dr. D. Rawls, of Connersville, Ind., pronounces Dr. Bull's Cough Syrup as an infalliable remedy in the community. He says it finds a ready sale at all times. It is the people's remedy. Price 25 cents.

A Card.

All who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a receipt that will cure you, free of charge. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, Station D. Bible House New York City.

SHOVING THE "QUEER."

COUNTERFEIT AND ALTERED MONEY OF ALL KINDS.

Altering Notes--Raising the Figures on Notes--Changing Notes--Another Kind of Work.

Washington Star.

The redemption of national bank notes and United States legal tenders by the Treasury department is often the medium of communication to the public that a new counterfeit of a note is extant; and more often the place where alterations of notes come to their final grief. Counterfeit notes are very frequently found in the mutilated currency that comes in from banks and individuals in search of good money. Cases where notes have been altered with fraudulent intent come to light in redeeming battered currency almost every day. It is notorious that the work of counterfeiting is carried on as a trade—or perhaps profession. It is not well known that men make a business

OF ALTERING NOTES

and cutting off pieces of them, and patching them together to make more notes than the originals. The number of notes that have been dealt with in this manner, shows that a regular profession in this line exists. The old practice of cutting ten or twelve notes into ten strips and making therefrom one more than the original number, has been discontinued. It got to be too ancient a trick, and one too readily detected. The work of the latter day artists in altering notes is somewhat more elaborate. One way is to

RAISE THE FIGURES ON THE NOTES.

The bodies of nearly all the notes are identical. The operator will take a one dollar bill and a two dollar bill. He will cut the figures denoting the denominations of the two—being carefully cut out of the figures of the one and substitute the figure two therefor. He thus has a two dollar bill probably, because not more than one-tenth of it has been destroyed. This is a very cunning way of doctoring notes. As people generally count money by picking up the right hand corner of each note, detection of changed notes is in the ordinary course of business not very easy. All the counters in the redemption division are excellent detectives of crooked money. The other day one of them had a package of notes from a bank to count. She made out one dollar more than the figures on the package denoted. She counted them over again and again, but brought out the same result. She told Mr. Davidge, the chief of the division. That officer counted the package and found a "raised" two-dollar note—thus accounting for the dollar over. The bank sending in the package evidently knew that it was worth but a dollar, and did not count it as more. The figures used in raising the notes of higher denominations are generally taken from the old fractional currency, as they are identical or very nearly so.

ANOTHER WAY OF CHANGING NOTES

is to manipulate a ten-dollar and a hundred dollar note by splitting off the body of the former. Then by pasting there comes from the $110 the sum of $210 in pretty good deceptive shape. This plan or working things has been but recently developed. The first notes received at the redemption bureau that had been thus doctored came in this week.

ANOTHER KIND OF WORK

is evidently done by one man or a firm. The notes opperated upon are tens of the issue of 1869. All the notes are treated in the same way. They come in from a belt from St. Louis to Memphis, and are evidently systematically worked. The notes are cut from one corner to the other diagonally in a zigzag manner. It has been impossible to discover how anything is exactly made out of this operation, but it is evident that from the manner of cutting, the operator somehow succeeds in getting enough pieces to make a new note. The men working up this scheme are evidently doing a large business, as many notes cut diagonly zigzag are received by Mr. Davidge's division.

THE ALTERATION OF U. S. NOTES

is carried on all over the country, but the West is the section where it is most extensively in practice. The altered notes are disposed of to a certain extent in the same way that counterfeit notes are "shoved." The great field of operation for the altered note industry is, however, among banks just started. The officers and clerks of new banking institutions are somewhat green and naturally anxious to receive deposits. The man with the altered notes goes in and makes a deposit, and a day or two after draws it out again. Of course he does not get the same money that he puts in, and the bank has to forward the original deposit after discovery of its character to Washington to be redeemed as mutilated currency, for what it is worth under the regulations. The same bank seldom gets bitten twice. Every once in a while there will be evidences that the work of altering notes is on the increase, but again it will become evident that there is a lull in the business.

Meeting of the Alumni of the University.

The Alumni Association of the University of North Carolina will meet on the 22d instant, at 7:30o'clock, P. M., in the Governor's office in the capitol. The object of this meeting is to perfect the organization and increase the efficacy of the Association. The press of business at the University during commencement week affording scant time for its deliberations, the Association resolved, at the late commencement meeting, "that it would hold an annual meeting also in Raleigh at the same time as the meeting of the Board of Trustees."

By a resolution previously adopted, all persons that have been students of the University, may become members of the Association, and such are hereby invited to attend this meeting.

DAILY NEWS

FRIDAY, JANUARY 9, 1880.

GEO. C. JORDAN, Editor and Prop'r.

THE MILITIA BUREAU.

Whenever an army officer gets tired of playing poker and pin pool—and that is when he is "cleaned out" and has assigned his pay accounts for three months in advance—he turns his attention toward making a book. The "Tactics" having been twisted about in every conceivable shape until Scott and Hardee would now have to confess ignorance of the "manual of arms;" every cavalry officer having exhibited plates of horse skeletons, and Benet and Coppee having used up the fundamental rules of courts-martial and populated thereby the Dry Tortugas and the Albany Penitentiary—in fact every subject closely connected with the army having been written up or written down, it became necessary to start a new topic or the army would stagnate. Accordingly General Stephen V. Benet, an ordnance officer of merit and one thoroughly acquainted with his branch of the service from a twenty-inch gun down to an old dragoon blunderbuss, essays in his older age, when the officer becomes a martinet to force on to the American public the system of a monarchy as practiced in Europe, namely, the *Landwehr*. There are no Constitutional powers delegated to the General Government at this time to allow such an innovation—and, to tell the truth, we see no need of it. We have spoken in a slighting vein of General Benet, but we have a right to criticize. The General is a splendid officer and a gentleman.

We now give in substance a bill that will be introduced in the House in accordance with certain recommendations contained in General Benet's report of the Secretary of War to provide for the establishment of a militia bureau in connection with the Adjutant-General's considerable patronage in the matter of appointments. The officers to be appointed are one chief with the rank of colonel, two lieutenant-colonels, four majors, four captains, and twelve inspectors with a rank not less than that of lieutenant-colonel, four of whom will be taken from the regular army and the rest from State militia organizations.

By what right, title or authority will Congress have recognize this bill, except in the line of a Constitutional amendment? Let our military gentlemen study the workings of the militia system.

Did Mr. Tilden Say All This?

General Steedman as reported in the Cleveland (O.) Leader, December 31.

General Steedman has been to New York and last Sunday's issue of his organ, the Toledo *Democrat*, contains an account of his visit to the old spider of Gramercy Park. He went an enemy and came away a friend. The conversation, as in similar cases heretofore, was sudden and complete. "We rang his bell," says James, with a freedom of detail, "were promptly admitted, shown in his parlor and sent our name to Mr. Tilden, who in a few minutes appeared and gave us a cordial welcome. We were seated and Mr. Tilden at once commenced the conversation, which naturally ran into a free talk about the election of 1876 and the great fraud Presidency." Becoming more communicative Mr. Tilden used a line of argument certain to disarm the hostility of his visitor and gave utterance to these significant remarks:

"I have been accused of cowardice while my hands were tied by the action of my friends. I was not consulted in regard to the Electoral bill, and knew nothing about its preparation or intended adoption until Mr. Hewitt called and informed me that the bill had been agreed upon. I said to Mr. Hewitt I had not been consulted, and he replied that Senators Thurman and Bayard were acting in their public capacity as Senators, and would not consult anyone outside their sphere, but, I consult you, Mr. Tilden. I said: Mr. Hewitt, if Senators Thurman and Bayard have determined upon their action and will not consult me, I cannot give advice on the subject to any one; if, however, my friends have any doubt as to my election; if there is a reasonable doubt as to whether there has been an election by the people, the constitution prescribes a remedy—an election of President by the House of Representatives by a vote of States and that is what I expected Congress to do. If the House of Representatives had elected me I would have taken the oath and gone to Washington to take the office believing that my friends would have put me into the White House. How could I take the office while my own friends were arbitrating the question of my election? I censure no one, but I have told you the truth."

Governor Garcelon's Opportunity.

Governor Garcelon has laid great stress upon the claim that in deciding upon the returns he was actuated solely by an honest desire to go by the constitution and laws. We have no doubt that he believes he is justified by the laws and the precedents. The Republicans of the State have, in the past, furnished many precedents which the Governor and Council found very convenient this year; and, even following these, there was a fine opportunity to secure a partisan advantage. But Governor Garcelon makes his claim on ground so high that he is not justified in declining any reasonable test. Such a test Mr. Morrill suggested. The Supreme Court of the State is the highest interpretor of the constitution and the laws. It is above the suspicion of partisanship. Let its opinion be given on the points submitted, and the people will be satisfied. If it sustains the Governor in his general course, which is by no means improbable, it will be a feather in his cap; there will be no more talk of fraud or usurpation. If it does not sustain his action the Governor will have the proud satisfaction of seeing the constitution and laws followed. The point that an opinion of the Supreme Court will not bind the Governor, is, itself, a barren technicality. If the Governor is honest and patriotic, he does not need to be bound—only to be shown what is the right interpretation of the constitution and the laws. The other point, that the Governor and Council have performed their function in regard to the returns and cannot recall their action, will do for quibbling lawyers who seek for flaws in an indictment, but it does not answer in a great case of equity, in which the people seek for essential rights of self-government. If the Supreme Court shows that persons have received certificates of election unlawfully, the persons who have received them will resign and not attempt to hold the places to which they were not elected. We are by no means sure that the Supreme Court, which has been very severe against defective returns, will not decide that the Governor and Council had a legal right to do nearly all the things they have done with the returns, while favoring their copartisans as much as possible, without violating any law. But, without regard to the result, it should be consulted, that the excitement may be allayed and peace and order maintained.

COMMERCIAL FACILITIES.

The Prospect for the Future of Wilmington.

Wilmington Star 8th.

The size of vessels coming to this port seems to keep pace with the increasing depth of water at the entrance to our harbor and river. On the 31st of December the Argentine Brig *Enrique*, Captain Payson, registering 582 tons, was cleared for Liverpool by Messrs. Williams & Murchison with 2,500 bales of cotton. On Tuesday last the British Barque *Bessie Parker*, Captain Tucker, registered 685 tons, was cleared for the same port, by the same firm, with a cargo of 2,720 bales of cotton. On Tuesday we recorded the arrival here of the British Barque *Maggie O'Brien*, Captain Flemming, registering 700 tons, and consigned to Mr. C. P. Mebane. We learn from some of our oldest citizens that she is the largest vessel that ever came up to this port to load. A dismasted ship of some 900 tons put in here some time in the year 1848, with troops from the Mexican war, the object being to obtain some necessary repairs before proceeding.

The constantly-increasing depth of water at the mouth of the river, as the works of improvement progress, is an encouragement to vessels of large tonnage to visit our port. By reference to our files we find that on the 1st of January, 1879, the pilots reported the soundings in Bald Head Channel, at low water, to be *nine feet*. The report handed in for the first of the month this year places it at *twelve feet*. The prospects of the future as regards our shipping facilities are decidedly bright and brightening, and we hope to see the time when ships of heavy tonnage can come up to our wharves and load. About the year 1826 a ship of 664 tons was built to trade between New York and Europe, being a very large vessel for that time, and she was named the *Colossus*, as one way of expressing the owner's idea of her huge dimensions. Now take a glance along the wharves and through the harbor of that great commercial metropolis of America, and it will be seen that a vessel of the dimensions of the once famed *Colossus* would be a pigmy in comparison with her "grown-up" sisters around her. We may see the time, even in our day, when the *Maggie O'Brien* would be rated as a small craft by the "merchant princes" of Wilmington. Stranger things have happened.

Frank Leslie's Sunday Magazine for February

Is one of the most attractive numbers that has yet been issued of this entertaining and edifying publication, and well sustains its high reputation. The one hundred and twenty-eight pages are filled with delightful literature, and are bright with some one hundred beautiful engravings. The articles are on a variety of subjects, to suit all tastes, and will interest educated and cultivated minds as well as the most ordinary reader. Our space will permit a reference only to a few of the most noteworthy. "The Case of the Rev. William Tennent," by Alfreton Hervey; "Salt and Salt-mines," by Godfrey A. Hudson; "St. Augustine, the Apostle of the English," by Herbert Lee, and "The Persecutions of the Huguenots," by Alfred H. Guernsey, are exceedingly interesting as is likewise the article on Magdalen Herbert, the mother of George Herbert, the 'Poet of the Temple.' The first of a series of papers, entitled "The Children of the Bible," gives promise of becoming an unusually attractive feature. Mrs. Augusta B. Garrett has an admirable article, entitled 'Benedic Anima Mea," a voluntary on sacred music. The department of fiction is crowded with good things, and there are poems by Mrs. Carrie L. Post, George Herbert, Rev. E. H. Bickersteth, Austin Griffin, etc., etc. Youthful readers will be delighted with the stories, "Little Hinges," "The Lucky Prince, Wee-Wee," etc.; the former is the commencement of a new serial. There is a very abundant miscellany of the most entertaining and instructive character, and the annual subscription $3, postpaid. Address, Frank Leslie's Publishing House, 53, 55 and 57 Park Place, New York.

The Other Title American.

New York Sun.

Allow me to ask why you speak of the late George the Count Joannes, as "the one American nobleman." The only titled person in the United States. In the *Sun*, a few days ago, was a Statement (which I have verified by a reference to Burke) to the effect that the present Baron Fairfax, of Cameron, in the peerage of Scotland, is a native born American citizen, who has always resided in America. According to the above authority, his lordship is a medical practitioner somewhere down in North Carolina. The genuiness of the title is beyond dispute, nor should he be accounted any the less a nobleman because he refrains from flaunting it in the face of an enlightened Democracy

One of the pluckiest men in the medical profession is Dr. South, of Western Texas. He was warned some time ago that he would have to pay with his life the forfeit of having voted as a member of a grand jury for the indictment of a certain band of desperadoes. One night a man rode up to his ranch and informed him that the wife of the ring-leader of the gang was ill, and that he must attend her. He naturally thought that it was a trick to get him out and kill him, but he got his horse and rode away with the messenger right among the gang of desperadoes, and dismounting, entered the tent of the woman. There lay the sufferer, while the man who had promised to kill the physician stood near by. The doctor drew his revolver, placed it on the pillow, and remarked that he would "attend to professional calls first and personal ones afterward." The desperadoes were impressed with his courage and his humanity, and trebled his fees instead of shooting him.

Make a Note of This.

Professor Green, a distinguished allopathic physician, wrote to the Medical Journal to the effect that after all other means had failed he sent for the Kidney Cure, (now Safe Kidney and Liver Cure), and to his astonishment cured a serious case of Bright's Disease by administering it, and afterward found it equally beneficial in other cases. He advised his brother physicians to use it in preference to anything else for kidney diseases.

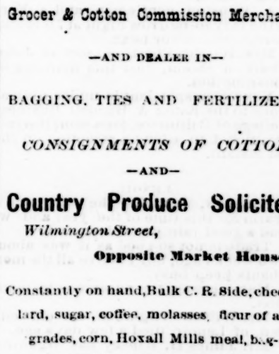
SMITH'S WORM OIL.



ATHENS, GA., December 8, 1878

A few nights since I gave my son one dose of the Worm Oil, and the next day he passed sixteen large worms. At the same time I gave one to my little girl, four years old, and she passed eighty-six worms from four to fifteen inches long.

GOSSIP FOR THE LADIES.

The Managing Mamma.

She walketh up and down the marriage mart,
And swells with triumph as her wares depart;
In velvet clad, with well-bejewelled hands,
She has a smile for him who owns broad lands,
And wears her nodding plumes with rare effect
In passing poverty with head erect.
She tries each would-be suitor in the scale—
That social scale, whose balance does not fail;
So much for wealth, so much for noble blood,
Deduct for age, or for some clinging mud.
Her daughters, too, well-tutored by her art,
All unreluctant in her game take part,
Or, weakly passive, yield themselves to fate,
Knowing full well resistance is too late.
Thus are her victims to the altar led,
With shining robes and flowers upon the head.
There, at the holy shrine, 'mid sacred (?) vows,
She fancies Heaven will bless what earth allows,
And sells her child to Mammon with a smile,
While Mephistopheles approves the style!

—Chambers' Journal.

Another American girl is to marry a nobleman. Why is it that our girls refuse to support their own countrymen? There is a lack of patriotism somewhere.

An Ohio man met a weeping woman and kissed her tears away. The jury found a verdict of $3,800 for the plaintiff. It is far better to let her sqnall.

When charity asks her due she don't get what's odor if you don't give her a scent.

A man never realizes how frail he is until he bursts a suspender button among a group of ladies and finds himself slowly falling apart.

"Oh, is it not lovely, my dear," said the romantic Araminthe to her unpoetical husband, "to see the swallows back again?" "You stupid little fool, how can you pretend to see their backs when they fly so swiftly?" was his unfeeling reply. Mem: They had been married over a year.

Several days ago, on the Norman coast, a bather was drowned. Up to this time his body has not been recovered. Every morning the young and disconsolate widow of the drowned man comes and seats herself by the beach, questioning the unreplying ocean with eyes red with weeping. It is in vain that her friends seek to dissuade her from this painful practice.

"No," says she; "the sea has taken him from me, and the sea must bring him back to me."

They began to fear at last that the woman would lose her reason, and a distant relative was appointed to bring her around to thoughts of resignation.

"Come, come, Henrietta," you must give a reason for this!"

"A reason!" exclaimed the widow, between her sobs; "it is very easy for you to demand a reason, but—boo—hoo—hoo!—if they don't find his body I can never get married again!"—*French Paper.*

Cuticura

BLOOD AND SKIN HUMORS,

The Scourge of Mankind. Old Methods of Treatment and Remedies a Failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this country. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm, Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP.

BREAST AND LIMBS CURED.

Messrs. WEEKS & POTTER: Gentlemen—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago believing they could do me no good. The CUTICURA has stopped this unsatisfactory expense—even if it were necessary and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs. ——, of ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April 1st last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc.,
STEPHEN CROWELL.
NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE

CURED IN ONE WEEK.

Messrs. WEEKS & POTTER:—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day.

TORPID LIVER.

Loss of Appetite, Bowels costive, Pain in the Head, with a dull sensation in the back part, Pain under the shoulder-blade, fullness after eating, with a disinclination to exertion of body or mind, Irritability of temper, Low spirits, with a feeling of having neglected some duty, Weariness, Dizziness, Fluttering at the Heart, Dots before the eyes, Yellow Skin, Headache generally over the right eye, Restlessness with fitful dreams, highly colored Urine.

IF THESE WARNINGS ARE UNHEEDED, SERIOUS DISEASES WILL SOON BE DEVELOPED.

TUTT'S PILLS are especially adapted to such cases, one dose effects such a change of feeling as to astonish the sufferer.

CONSTIPATION.

Only with regularity of the bowels can perfect health be enjoyed. If the constipation is of recent date, a single dose of TUTT'S PILLS will suffice, but if it has become habitual, one pill should be taken every night, gradually lessening the frequency of the dose until a regular daily movement is obtained, which will soon follow.

Dr. I. Guy Lewis, Fulton, Ark., says: "After a practice of 25 years, I pronounce TUTT'S PILLS the best anti-bilious medicine ever made."

Rev. F. R. Osgood, New York, says: "I have had Dyspepsia, Weak Stomach and Nervousness. I never had any medicine to do me so much good as TUTT'S PILLS. They are as good as represented."

Rev. Dr. Mangum, Prof. Univ. of N. C. I concur with Bishop Doggett in his estimate of the Vest Pocket Cure.

Rev. Drs. Jeter, Broaddus, Dickinson, Bap.: It is indorsed by the direct personal testimony of men of national fame and strictness of speech. It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well-known physicians, removes all doubt. It is beyond question, a wonderful therapeutical agent.—Editors Religious Herald, Va.

Chaplain Randolph Macon College, Va. Many cases of Dyspepsia within my knowledge have been cured by it. Cramps, Colics Headaches and all sorts of pains from indigestion yield promptly to it. The cures of this sort are innumerable.

Rev. R. L. Dabney. LL. D., Col. Va. It is highly esteemed here by the regular Medical Faculty and the people. It is excellent for indigestion and flatulent colic, sedative, soporific, tonic, slightly aperient without nausea.

Rev. B F. Woodward, P. E., Na. Conf. About twelve years I suffered from Dyspepsia. Failing in with this remedy, I gave it a fair trial. After its use I could eat anything with impunity. I am sure I am indebted to this medicine for what of health and physical comfort I have had for the last sixteen years. I have known many since to be relieved by its use.

Rev. Robert W. Watts, A. M., Va. I have used the mixture in my family for years, and have taken it for a Dyspepsia Colic, which threatened my life, and was cured, eating any diet without hurt. I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I ever knew. For prostration from Dyspepsia or Liver Disease it is invaluable.

J. D. Eggleston, M. D., Va. It is a highly valuable remedy, and is more extensively used than any single article in the whole list of medicines, so far as I observed in my practice, for all the complaints in familie from indigestion. I use it and recommend it.

Editor Richmond Christian Advocate. This remedy is of tried virtue. I have seen Dyspepsia cured completely by it. It seems to be an antidote to our "National Disease." The ingredients are not kept by the apothecaries, and have been difficult to get.

Land Sale.

By virtue of a mortgage executed to me by Wesley Jones, dated February 18th 1878, recorded in the Register's office of Wake county, in book 50 p 234, I will on the 15th day of January, 1880, at the court house door, sell the following described tract of land in Swift Creek township, Wake county, adjoining the lots of Mathew Stevens, Samuel Utley and others, 62½ acres more, or less, known as the "Mocklin place."

Place of sale, court house door.
Time of sale, 15th day of January, 1880.
Terms of Sale, cash.

J. J. L. McCULLERS, JR.,
dec14dim Mortgagee.

FOR SALE.

I offer for sale my farm, two miles from Raleigh, on the Tarboro road, containing 120 acres. It is in a high state of cultivation. I will take one part cash; the balance on one, two and three years, 6 per cent. on the deferred payments.

Also the place on which I now live, corner of Wilmington and Davie streets, containing about ½ acre. It is one of the most valuable lots in Raleigh, right in the heart of the cotton trade. Terms easy. Same as above.

If not sold by the 15th of Jan'y I will rent both plantation and residence for the remainder of the year.

SALE OF

Valuable Real Estate

IN THE CITY OF RALEIGH.

BY VIRTUE OF AUTHORITY contained in a certain Deed of Mortgage executed to me by Charles H. Dunston and Eliza Dunston, his wife, on the 4th day of March, 1878, and registered in the office of Register of Deeds for Wake county, N. C., in book 50, page 335, I will, on the

12th Day of January, 1880,

at 12 o'clock, at the Court House door in the city of Raleigh, expose to public sale, the premises described in said Deed of Mortgage, being in the southeastern portion of said city, and whereon the said Charles Dunston now resides.

Terms of sale—cash.

Drug Store for Sale,

In one of the best business towns in N. C., doing a good retail business. Stock and fixtures first-class, amount about $2,000. Best location in the place. Good reasons for selling. Address, BOX No. 279, Raleigh, N. C.

A Rare Chance for Investment.

Wishing to give my whole attention to the lumber trade, in which I am about to engage on a larger scale than ever before, I offer for sale on terms to suit the times the following valuable property in Cary:

I.

MY PLUG TOBACCO FACTORY, in a BRICK building 50x80 feet, 3 stories high, the lower story being two large storerooms. The Tobacco Machinery is new and has a capacity of manufacturing 1,000 lbs. per day. The factory has been worked a year, and a good beginning for a trade has been made. The building and the machinery will be sold together, or separately to suit purchasers.

II.

GRAIN MILLS,

in a 3 story brick building, 28x40 feet. Two Wheat Mills and one Corn Mill, new and complete with a capacity for grinding 100 bushels of wheat and 100 bushels of corn a day, and can compete in quality of flour with any mills in the State. The mills have had a very large local patronage during the past year. They are driven by a 60 HORSE POWER STEAM ENGINE, Improved, of the make of Talbott & Sons, Richmond.

Attached to the engine is also a 60 Saw COTTON GIN and power press, at a safe distance (about 100 feet) in a different lot. The engine has a brick smoke-stack 60 feet high, making the danger from fire the least possible and the rate of insurance very low.

III.

Several well built and handsome residences, with lots and gardens of about 1 acre to each dwelling. They are wooden buildings, 2 stories high, with from 5 to 7 rooms each situated in desirable locations in the village.

Besides these, 4 one acre lots, with cottage buildings of 2 rooms.

TERMS: One-third Cash; balance on reasonable time.

Why Will You
Allow a cold to advance in your system and thus encourage more serious maladies, such as Pneumonia, Hemorrhages and Lung troubles when an immediate relief can be so readily attained. *Boschee's German Syrup* has gained the largest sale in the world for the cure of Cough, Colds and the severest Lung Diseases. It is Dr. Boschee's famous German prescription, and is prepared with the greatest care, and no fear need be entertained in administering it to the youngest child, as per directions. The sale of this medicine is unprecedented. Since first introduced there has been a constant increasing demand and without a single report of a failure to do its work in any case. Ask your Druggist as to the truth of these remarks. Large size 75 cents. Try it and be convinced.

Mothers! Mothers!! Mothers!!!
Are you disturbed at night and broken of your rest by a sick child suffering and crying with the exeruciating pain of cutting teeth? If so, go at once and get a bottle of Mrs. Winslow's Soothing Syrup. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle.

What Physicians at Home and Abroad Think of the Seven Springs Iron and Alum Mass.
In the treatment of Dyspepsia, Chlorosis, Anæmia, Nervous and Muscular Debility, Nervous and Sick Headache, Dysmenorrhœa, Menorrhagia, Amenorrhœa, diseases of the Kidneys and Bladder and such like organic or functional disturbances, I know of no remedy upon which I can rely with more certainty of satisfactory results than the "Seven Springs Mass."
W. F BARR, M. D.,
Abingdon, Va.

I have found no one single remedy to yield such satisfactory results as the "Seven Springs Mass." In the treatment of Dyspepsia, Chronic Diarrhœa, Anamia, Chlorosis, and for Chronic Eczema, I find it invaluable, associated with appropriate topical treatment.
GEO. T. HARRISON, M. D.,
New York City.

From my experience with the "Iron and Alum Mass," I believe it will prove the best medicine we have in use, for chronic diseases.
G. M. D. PATTERSON, M. D.,
Eaglewood, Texas.

For Dyspepsia, Ulcerations of the Throat, Inflammation of the Neck of the Bladder, Leucorrhœa, etc., the "Seven Springs Mass" seems to act with almost specific effect.
E. O. GRIGSBY,
DeView, Ark.

We could extend this list into the thousands with such testimonials from physicians from every State in the Union, but these are sufficient to indicate its application. The reputation of the remedy is too widely known to waste words upon its character. In ordering from druggists always mention Seven Springs Mass. Price $1 per package or six for $5, sent by mail, postpaid.

ONE OF THE MOST IMPORTANT DISCOVERIES.
of the nineteenth century, and one that takes equal rank with the invention of the telephone, the electric light and other scientific marvels of the age, is that of
Henry Carbolic Salve.
This compound possesses the most remarkable Healing Properties of any known agent employed for the purpose of curing
SORES, WOUNDS, CUTS, BRUISES,
Inflamed and abraded surfaces, and for
ALL SKIN DISEASES.
Its cleansing properties remove all impurities that hinder the formation of healthy flesh, and the work of cure goes on to completion with most **Wonderful Rapidity.** Let no family be without a box of it in the house. Physicians extol its virtues; and the thousands who have used it unite in recommending it. Beware of counterfeits.
Ask for Henry's Carbolic Salve, and take no Other.

Here is what the Manufacturers say:
In construction of our work we use Patent Wheels, Hand-made Wheels, also Sarven's best Patent Wheels. We use only Refined Iron. We use the best of Swede and Norway Iron Bolts. We use the best Oil Tempered Springs, which are all warranted to us. We use the best Case-Hardened Solid Collar Axle Sheldon's make, Anchor brand. We use the best of Top Leather, also Fancy Colored Trimming Leather and best of Cloth. All Top Linings are pure woolen goods, and not half cotton or shoddy. We stitch all Tops by hand, and nail none. We use concealed joints in all Tops. We use Steel Bow Sockets, also Wood Bows. We miter all corners. All wood-work is thoroughly put together. Glue and Screws only being used. We use Hard wood for all Frames. We use the best Seasoned Hickory in all Gearings. In Trimmings we are excelled by none; and in Painting we use Standard Colors, and finish with the best English Varnish.
We claim that we manufacture a better style, and a more superior finished vehicle throughout, for the price, than any other house in the United States. We except none.
All our Top Buggies are made with Shifting Rails, and can be readily changed to Open Buggies. All our Tops are so adjusted as to fit any other like vehicle of our manufacture.

SPECIAL CARD.
We take pleasure in placing our work before you here, showing our advantages over all competitors in Trimming, Painting, Material and Workmanship in general, and giving you an opportunity to purchase a vehicle at much less price than charged by home manufacturers.
All we ask is to give our work a trial and we feel confident you will agree with us that we give more for the money than any other house in the world.
No vehicle leaves our establishment without our name-plate being attached.

Rosadalis.
THE GREAT SOUTHERN remedy for the cure of Scrofula, Scrofulous Taint, Rheumatism, White Swelling Gout, Goitre, Consumption Bronchitis, Nervous Debility and all diseases arising from an impure condition of the Blood.
The merits of this valuable preparation are so well known that a passing notice is but necessary to remind the readers of this journal of the necessity of always having a bottle of this med cine among their stock of family necessities.
Certificates can be presented from many leading Physicians Minister, and heads of families throughout the South, endorsing in the highest terms The Fluid Extract of Rosadalis.
DR. H. WILLIAM CARR, of Baltimore says he has used it in cases of Scrofula and other diseases with much satisfaction.
DR. T. C. PUGH, of Baltimore, recommends it to all persons suffering with diseased Blood, saying it is superior to any preparation he has ever used.
REV D ABNEY BALL, of the Baltimore M. E. Conference South, says he is so much benefited by its use that he cheerfully recommends it to all his friends and acquaintances.
CRAVEN & Co., Druggists, of Gordonsville, Va., says it never has failed to give satisfaction.
Samuel G. McFadden, of Murfreesboro, Tennessee, says it cured him of Rheumatism when all else failed.
Rosadalis is not a secret quack preparation, its ingredients are published on every package. Show it to your Physician and he will tell you it is composed of the strongest alteratives that exist, and is an excellent blood purifier. Did our space admit we could give you testimonials from every State in the South and from persons known to every man, woman and child either personally or by reputation.
Rosadalis is sold by all Druggists.

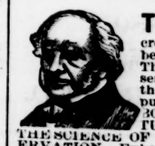
KNOW THYSELF



THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; or SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.
Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. Three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1, sent by mail post-paid.
The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."
An illustrated sample sent to all on receipt of 6 cents for postage.
The author refers, by permission, to Jos. S. Fisher, president; W. I. P. Ingraham, vice-president; W. Paine, M. D.; C. S. Gaunit, M. D.; H. J. Doucet, M. D.; R. H. Kline, M. D.; J. R. Holcomb, M. D.; N. R. Lynch, M. D., and M. R. O'Connell, M. D., faculty of the Philadelphia University of Medicine and Surgery; also the faculty of the American University of Philadelphia; also Hon. P. A. Bissell, M. D., president of the National Medical Association.
Address Dr. W. H. PARKER, No. 4 Bulfinch Street, Boston Mass. The author may be consulted on all diseases requiring skill and experience.
